Supervisor's contact information including e-mail. 678-472-5858
caidman@emory.edu

Organization's Mission Statement: To provide health disparities education and advocacy, build collaborative partnerships, and develop best practice models with low-wealth communities and those who work with them to advance equity in health and well-being.

- **Summary of organization's primary programs and services:**

- Overview

- Vision Statement: Communities working together to eliminate health disparities and social determinants of health inequity.
- Mission Statement: To provide health disparities education and advocacy, build collaborative partnerships and develop best practice models with low-resourced communities and those who work with them to advance equity in health and well-being.

- Our Values:

- *Leadership:* We listen and learn from our community. We approach the systemic causes of community problems and mobilize resources for the common good.
- *Equity:* We endeavor for health equity, and focus primarily, but not exclusively, on vulnerable populations in the Metro Atlanta area.
- *Inclusiveness:* We practice and champion inclusiveness in the community at large. We honor diverse strengths, needs, voices, and backgrounds of all members of the UHI and partnering communities.
- *Accountability:* We serve as stewards for our community investments and honor the charitable intentions of donors to meet current and future research-based community-led needs. We are duty-bound to the highest standards of ethics, integrity, service, and fiduciary responsibility.

- **Key Strategies and Objectives:**

1. Education: To train current and future health practitioners to serve in a socially complex world, better able to understand and cooperatively address the problems facing many of their patients/clients and the community at large.
2. Community Engagement: Strengthen the capacity and create a sustainable infrastructure of health and community systems to reduce health disparities and create an enabling environment for community health and well-being.
3. Research: Develop and test culturally competent and community informed interventions that hold to the highest standards of excellence in community engagement and scholarly research.
